

Spokane Bar Sapphire Mine & Gold Fever Rock Shop

January 2007 Newsletter

Tall field grasses, empty shards, whip furiously in fifty mile an hour wind gusts, one top speed of 86 mph! Experience the Cactus Hill gravel pit at the Spokane Bar Sapphire Mine near Helena, Montana where even the dirt and sand ebb and flow in piles, the terrain moved by the ceaseless wind. Add winter's bitter cold, hands chilled to unfeeling, except pain (negative 18 degrees!).

We are still mining stockpiles, filling orders from Travel Channel's *How to Find Cash and Treasures* viewers, (some callers anxious to dig for sapphires). I keep telling everyone the ground is still frozen! Though we've had diggers in the midst of blizzards, sheer determination...or something like that!! Read the comments at <http://travel.discovery.com/fansites/cash-treasures/cash-treasures.html> I just noticed the new schedule on the Travel Channel. They will again air *How to Find Cash and Treasures, Sapphires*, February 13th 10:30 pm Eastern Time, 8:30 pm Mountain Standard. Stay tuned!!
